## Whale Watching & Wildlife Quest

Experience southeast Alaska's incredible scenery and amazing wildlife on this exceptional whale-watching excursion with a "money-back" sighting guarantee that is available rain or shine. Following a short motorcoach ride to Auke Bay, board a water jet-powered catamaran designed for wildlife viewing. The spacious main cabin welcomes you and offers panoramic views of the spectacular scenery. An onboard naturalist will explain the habits and habitats of the wildlife you may encounter. Have your binoculars and your camera ready when you spot Steller sea lions, harbor seals, Dall's porpoises, bald eagles, Sitka blacktail deer and, occasionally, bears. Of course no whale-watching tour would be complete without seeing the majestic mammals so plentiful in the nutrient-rich Alaskan waters. In fact, we are so confident in the abundance of wildlife in the waters we offer a \$100 cash whale-sighting guarantee!

Special Notes: One complimentary beverage provided per guest with a cash bar after that. Participation is limited.

## White Pass Scenic Railway

All aboard for an unforgettable journey on "The Scenic Railway of the World" to the magnificent, White Pass Summit. Carved through some of the North's most rugged terrain in 1898, this engineering marvel climbs nearly 3,000 feet, offering spectacular views, breathtaking scenery and a wilderness guide to narrate the experience. Built during the Klondike Gold Rush, the railway was completed in 26 months by blasting through the mountains with 450 tons of explosives. Fully restored cars, pulled by vintage diesel locomotives, travel over 20 miles of steep grades and around cliff hanging turns. Retrace the original route to the White Pass Summit, take in the breathtaking panorama of mountains, glaciers, gorges, waterfalls, tunnels, trestles and historic sites from large, picture windows and hear fascinating tales of Gold Rush history recounted by a colorful passenger agent who serves as your guide.

Special Notes: No passport required as you do not disembark the train at the summit. Actual tour duration varies between 3 and 3.5 hours depending on traffic on the train tracks. Participation is limited.
